

DAMAGE TO WORK ON BIG CANAL

Great Gatun Dam
Sunk, Due to the
Heavy Rains.

Nov. 24.—Owing to the exceptional rainfall of the last three days, the earth on the crest of the great Gatun dam, which is designed to be the water of the Chagres river, in the beginning fifty feet high, has now been extended to a point where the settlement of the dam is not so great. The reason is the heavy rain which has fallen on the crest of the dam, and the fact that the water has been so high, that it has been able to prevent the falling in of the earth on the crest of the dam.

Nov. 24.—Secretary of War, Mr. Taft, today cabled Col. George B. Goethals, chief engineer of the Panama canal, for a statement as to the amount of the damage by the recent rains, a portion of the work on the canal, where a big dam, designed to hold in check the waters of the Chagres river, has been destroyed. The statement was received at the War department today. The statement was received at the War department today. The statement was received at the War department today.

GROWS HAIR ON BALD HEADS

Bald Headed People May Get a New
Chance in Life.

In these days when youth is the moving factor in business, when a man makes his mark at thirty-five and is ready to retire at forty-five; when business houses pension the man we call "middle aged," rather than allow his lagging influence to intrude upon the commercial rush, a bald head is almost fatal to any man's hopes. The following must therefore prove interesting to people who are losing their hair or who are bald.

Resorcin is one of the latest and most effective germ killers discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its nutriment, and also creates a clean and healthy condition of the scalp, which prevents the development of new germs.

Pilocarpin is a well known agent for restoring the hair to its natural color, where the loss of color has been due to a disease of the scalp. Yet, it is not a coloring matter or dye.

This combination of curatives mixed with alcohol as a stimulant perfects the most effective remedy for hair and scalp troubles.

The famous Rexall "93" Hair Tonic is chiefly composed of Resorcin, Beta Naphthol and Pilocarpin. It makes the scalp healthy, nourishes the hair, stimulates the follicles. Where the hair is already bare, it enters the follicles, revitalizes the roots, supplies nourishment and stimulates a new growth.

We want you to try a few bottles of Rexall "93" Hair Tonic, on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy and it should indisputably demonstrate that we know what we are talking about when we say that Rexall "93" Hair Tonic will grow hair on bald heads, except, of course, where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexall "93" Hair Tonic, and we have the right to assume that what it has done to hundreds of others it will do for you. In giving it a trial on our liberal guarantee, you cannot lose anything by trying it. Two sizes, 50c and \$1.00. Smith Drug Co., Inc., and Druehl & Frank, Salt Lake City.

The new comic opera, "The Alaskan," which John Cort is to present at the Salt Lake Theatre for four nights and two matinees, commencing this Wednesday evening, aims at a gay and amusing reflex of pioneer life in and about Nome in the early days of the gold fever there. Joseph Blethen, author of "The Chinook" and other plays successful in the west, who wrote the book and lyrics, is a young newspaper man of Seattle, Wash., who was himself among the first of the gold seekers to venture "inside" the ice-locked trails and write of the argonauts and the country from whimsical observations and experiences he shared with the adventurers. The composer of the opera's score, Harry Grand, was also of the early Alaska prospectors, abandoning a successful stage career at the height of a season with Lulu Glaser in "Dolly Varden," whose leading singer he was, to try his fortune at Nome placer mining. The opera is the result of a meeting of the brain of the northwestern writer, who said to have been written on the spot. The humor of northwestern placer camp life under summer sunshines and winter snows, more than a hint of a love affair between two principals are snowbound, and an attempt to convey some comic types of camp people, are reported as the authors. The scenes and action are confined to Nome and near Nome. The production is in prologue and two acts, the introduction being pictorial, pantomime and musical, the first act scene a gold mining camp in summer, and the second a Nome winter scene, the gaieties of a New Year's eve camp frolic. In his production of the piece Mr. Cort has not only preserved the atmosphere of the book, but has added to it, and the author calls for Esquimo dogs of the kind known in Alaska as "mushers," the managers has supplied them—twelve—brought direct from Nome.

Ernie and Mildred Potts are furnishing much entertainment with their clever singing, dancing and bag bunting novelty act at the Orpheum this week. Mildred Potts is a dainty southerner, who pleases both the eyes and ears, while Mr. Potts is the champion bag puncher and boxer in the United States. At one time he was a prize fighter, generally known as Kid Selby. The finishing climax to his turn is a boxing exhibition wherein he simultaneously punishes, speedily and skillfully, five punching bags. The other acts on the bill are Aselline Dunlap-Frank McCormack & Co., Howard and Howard, the Chadwick Trio, Cadets de Gasconne, McPhee and Hill, and Netta Vesta. This programme goes every day, with afternoon and evening performances.

If you have not seen the dancing Pippins, the New York and college girls, if you have not heard the song, "What's the Use of Working When the Old Man Runs a Bank?" if you have not heard the old song, and "Love is Very Foolish," you have missed something, and you have also missed the "Sunny Side of Broadway," which those famous comedians, Murray and Mack, are presenting at the new Colonial. It is the second and revised edition of their musical comedy. There will be a matinee today, a special Thanksgiving matinee Thursday, and every evening the remainder of the week.

A matinee and evening performance of "Parted on Their Bridal Tour," by the Walter Arnin company at the Grand today, ends the engagement of that capital melodrama. Special prices of 15 and 25 cents will prevail at the matinee. Starting Thursday afternoon, with a special Thanksgiving matinee, A Gambler's Sweetheart will be the offering for the balance of the week. This drama is said to be one of the best western melodramas ever presented.

CARNEGIE NOT LIKELY TO ACCEPT INVITATION

NEW YORK, Nov. 24.—Andrew Carnegie apparently will not appear tomorrow at the hearing in Washington by the ways and means committee on the iron and steel schedule on the part of the steel trust. He had been invited to give out this information, yet he refused to disclose the nature of his reply, saying he thought such action on his part would be discourteous to the committee. If the letter carried a refusal to attend the hearings the decision could not have been due to the state of Mr. Carnegie's health, for his secretary for him says that he has completely recovered from the indisposition which prevented his keeping an engagement in Baltimore last night.

PREHISTORIC SKELETONS DISCOVERED BY WORKMEN

EAST ST. LOUIS, Ill., Nov. 24.—Human bones, believed to have been those of sixteen mound builders, were found in East St. Louis today by workmen who were digging an excavation. One skeleton was found in a stone tomb eight feet high. It was that of a man apparently seven feet tall. When the stones were removed the skeleton fell to pieces. Buried under seven feet of earth near the base of this ancient tomb were the skeletons of fifteen men, all above normal height. They were buried in a circle about the tomb where their chief had been buried.

JUDGE SAYS KETCHEL AND PAPKE CAN BOX

SAN FRANCISCO, Nov. 24.—The application of John J. Gleason for an injunction to prevent Papke and Ketchel from fighting on Thursday, under the auspices of James J. Coffroth club, was refused by Judge Scawell today. The contest will therefore be held as scheduled. In denying the application, the court held that an injunction could not be issued for the purpose of restraining a person from the performance of manual labor or personal services, and that the code lays down an absolute rule that the court cannot restrain a breach of contract, the performance of which the court cannot enforce.

Prominent Man Dies

WINNIPEG, Man., Nov. 24.—General Sir Henry Wilkinson, a well known British capitalist, who was largely interested in mining in the Lake of the Woods district, died last night at Kensington, aged 69. He was decorated with the Victoria Cross in the Indian mutiny, in the Afghan war and in the Egyptian campaign.
